

How To Find Inspiration Script

Yo! Markus Sull here and today Im gonna show you How To Find Inspiration. So next time, If you have a creative block, these tricks can help you break through it.

One thing can be to take a Step back from everything and do something simple like going for a walk, listen to some tunes, or just daydream.

Another thing you can use is entertainment. This can be watching a movie, reading a book or playing a game.

Something else I recommend is revisiting old ideas. Look back on some other things you made and I bet some ideas will emerge from this.

And finally, Create without pressure. Just freestyle some random things and you can get many things to build off of.

And there you go, You now got yourself some inspiration like I did which led to this video being made.
